LinkedIn: linkedin.com/in/samruddhidange | GitHub: github.com/SamruddhiDangeSSGMCE

Professional Summary

Passionate Machine Learning Engineer & Data Science Intern with extensive experience in Python, Scikit-Learn, PyTorch, and TensorFlow. Skilled in designing scalable predictive models, Computer Vision systems, and interactive web applications.

Education

Bachelor of Engineering (B.E.) in Computer Science and Engineering

SSGMCE Shegaon | CGPA: 8.9 / 10.0 (2021 - 2025)

Technical Skills

Languages & Libraries: Python, SQL, C++, HTML, CSS, JavaScript

AI / ML Frameworks: PyTorch, TensorFlow, Scikit-Learn, Pandas, NumPy, OpenCV, Keras

Web & Cloud Tools: Streamlit, FastAPI, Flask, Docker, Git, GitHub, MySQL, MongoDB

Featured Projects

1. Handwritten Digit Recognition System (PyTorch CNN & SVM)

- Built a Deep Convolutional Neural Network achieving 99.44% test accuracy.
- Integrated dynamic preprocessing and multi-class probability visualization.

2. Customer Segmentation Engine using K-Means

- Analyzed customer spending behaviors using Elbow and Silhouette methods (k=5).
- Delivered automated marketing persona classification and interactive dashboard.

3. Titanic Survival Prediction Web App

- Trained Logistic Regression, Random Forest, and Gradient Boosting pipelines.
- Built real-time inference with probability gauges in Streamlit.

Internship Experience

CodTech IT Solutions - Machine Learning Intern

Duration: 4 Weeks | Domain: Artificial Intelligence & Machine Learning

- Developed production-ready machine learning solutions, documentation, and web apps.
